We are pleased to see that our representations that the governance of National Parks and the Broads needs to be improved and welcome the proposal to create a "National Landscape Service" to oversee the protection of our landscape.

We would welcome any comments on the proposals as currently published. This is in order to prepare for future stages especially as the frequency of parish meetings is not conducive to short notice reaction to what may be proposed following evaluation of current submissions

We are quite happy for this Newsletter to be freely distributed

Please let us know if you find the newsletter useful, or how they could be improved to meet your needs.
